Dr **Kiran Garimella** is Assistant Professor, Library and Information Science at Rutgers University's School of Communication and Information. His research deals with using large-scale data to tackle societal issues such as misinformation, political polarisation, and hate speech. Prior to joining Rutgers, Garimella was the Michael Hammer Postdoc at the Institute for Data, Systems and Society at the Massachusetts Institute of Technology, from March 2019 to August 2021. Before joining MIT, he was a postdoc at the École Polytechnique Fédérale de Lausanne (EPFL) in Switzerland.

A paper that he co-authored on studying and mitigating polarisation on social media, titled "Political Polarisation in Online News Consumption", won the best paper award at the International AAAI Conference on Web and Social Media (ICWSM) in 2021, and another paper on "The Effect of Collective Attention on Controversial Debates on Social Media" won the best student paper award at the ACM Web Science Conference in 2017.

Kiran received his PhD in computer science from Aalto University in Finland, and his Masters and Bachelors from IIIT Hyderabad in India. Prior to his PhD, he had worked as a Research Associate at the Qatar Computing Research Institute in Doha, Qatar, from December 2012 to December 2013, and as a Research Engineer at Yahoo! Research in Barcelona, Spain, from August 2011 to December 2012.
